Data Analyst | UX Strategist

Bridging data analysis and user experience

Data Analyst with UX/UI background and B.S. in Data Analytics (May 2026). Expert in transforming complex datasets into inclusive, actionable visual narratives using Python and SQL. Focused on optimizing operational efficiency and driving strategic, data-informed decisions.

Skills:

- **Data & Analysis:** Python, SQL (MySQL, PL/SQL), Excel (Pivot Tables/VBA), R
- **Visualization:** Matplotlib, Seaborn, Tableau, Geospatial & Interactive Viz, Data Storytelling
- **UX & Web:** Figma, Adobe XD, HTML5, CSS3, JavaScript, SVG (Interactive Graphics)
- **Collaboration:** Project Coordination, Cross-functional Teamwork, Problem Solving, Git

Professional Experience

Data Analyst Student Assistant — Cabrillo Community College Aptos, CA | 2022 – 2024

- Analyzed curriculum and scheduling data to support the Office of Instruction
- Cleaned and structured complex datasets to improve data quality and reporting accuracy
- Developed automated spreadsheet models and algorithms that reduced data processing time from days to hours, establishing templates for future financial reporting

Freelance UX Designer & Web Developer Peru | 2008 – 2022

- Designed and developed user-centered websites integrating UX/UI and front-end
- Enhanced usability and accessibility through optimized user flows and interaction design
- Translated business and user needs into functional digital solutions and visual identities

Web Designer — Entertainment Publications Inc. Troy, MI | 2006 – 2008

- Designed email newsletters and HTML/CSS templates focusing on user engagement
- Developed interfaces and micro-sites following rigorous usability and branding standards

Education & Certifications

B.S. Information Science & Data Analytics — San Jose State University (Honors), CA | May 2026

GPA: 4.0 — Relevant coursework: Data Analysis, Database Management, Machine Learning, Data Visualization & Communication, UX Design, Statistics

Key Projects

- **Predictive Modeling:** Developed ML models to identify patterns in complex datasets using Python (Pandas/Scikit-learn) and statistical analysis
- **UX Data Visualization:** Created interactive, accessible dashboards and user-centric narratives to communicate complex data insights effectively

Master Program in Graphic Design & Advertising — Toulouse Lautrec Institute, Peru

Certifications:

- **Google Data Analytics** (2024) | **Google UX Design** (2022) — Coursera
- **Database Development Practitioner - Advanced** (2022) | **Programming in Python** (2021) — De Anza College (Honors)

Honors:

- **President's Scholar** — San Jose State University
- **Dean's List** — Cabrillo and De Anza Colleges
